

**Sunshine State Young Readers Award Program
and Sunshine State Standards
Grades 6-8**

The Sunshine State Young Reader's Award Program (SSYRA) and the Sunshine State Standards are great partners! As you correlate the standards with SSYRA and your media program, you will offer students the opportunity to become discriminating readers, introduce new and noteworthy American authors, and connect your reading motivation program to your school's curriculum.

The standards and benchmarks listed below support the program goals of encouraging students to read for pleasure and to recognize outstanding American literature.
